Engineering Team

DATE

October 2026

1. Brand Identity & Visual Philosophy

Gymholik embraces a modern **Cyber-Emerald & Dark Sage** design philosophy. The aesthetic reflects strength, premium discipline, high contrast, and focused utility. The interface minimizes eye fatigue during low-light gym hours while providing vibrant, state-of-the-art visual accents.

2. Design Tokens & Color Palette

Token Name	Hex / RGBA Value	Visual Role & Application
background	#051F20	Deep abyssal emerald. Base canvas background for all screens.
surface	#0B2B26	Solid card background, floating tab bar body, modal panels.
raised	#163832	Elevated interactive surfaces, active input containers, avatar rings.
primary	#8EB69B	High-visibility sage green accent. Primary action buttons, active tab indicators.
primaryLight	#DAF1DE	Pale mint. Main headings, prominent counter typography, primary icons.
text	#FFFFFF	High-contrast pure white. Primary titles, member names, card headers.
textMuted	#A1B5A8	Subdued mint-grey. Secondary labels, timestamps, field hints, tab labels.
error	#FF6B6B	Coral red. Overdue badges, expired warnings, reversal actions.
warning	#F4A261	Warm amber. Pending trainer approval badges, partial dues chips.

3. Typography Hierarchy

Primary Font Families

Heading Font: Space Grotesk (Bold 700 / SemiBold 600 / Medium 500) — Geometric, modern athletic weight.

Body Font: Inter (Regular 400 / Medium 500 / SemiBold 600) — High legibility on mobile screens at small sizes.

Style	Font Family & Weight	Size	Line Height	Usage
Display / H1	Space Grotesk Bold	24px	32px	Dashboard greetings, screen primary titles.
Card Title / H2	Space Grotesk SemiBold	18px	24px	Section headers, profile names, metric values.
Body Regular	Inter Regular	14px	20px	Member descriptions, note paragraphs, table items.
Caption / Micro	Inter Medium	11px	14px	Tab bar labels, badge text, timestamp metadata.

4. Component Architecture & Micro-Interactions

4.1 The Custom Floating Tab Bar

- **Geometry:** Height 64px, pill border radius 32px, left/right margins 16px, bottom offset insets.bottom + 4px.
- **Background:** Solid #0B2B26 (100% opaque) with 1px border rgba(218, 241, 222, 0.12).
- **Center Raised Check-in Button:** 56px circular button lifted -18px above bar horizon. Features 3px solid #0B2B26 contour border. Active state features subtle pulse.
- **Sliding Sage Indicator:** Spring-driven horizontal pill following active tab index with opacity transitions.

4.2 Micro-Interactions & Haptics

- **Button Presses:** Spring scale compression to 0.96 with `Haptics.impactAsync(Light)`.
- **Check-in Success:** Sage screen pulse accompanied by `Haptics.notificationAsync(Success)`.
- **Expired Warning:** Double vibratory warning with warning banner modal.
- **Metric Counters:** Smooth 650ms ease-out count-up animation on dashboard launch.

5. Accessibility Compliance (WCAG 2.1 AA)

- All touch targets guarantee minimum 48×48 dp physical dimension.
- Text contrast ratio against #051F20 canvas exceeds 7:1 for white and 4.8:1 for sage mint.
- Full support for system `reduceMotion` setting (bypasses spring sequences for instant transitions).
