1. How to Read This Document

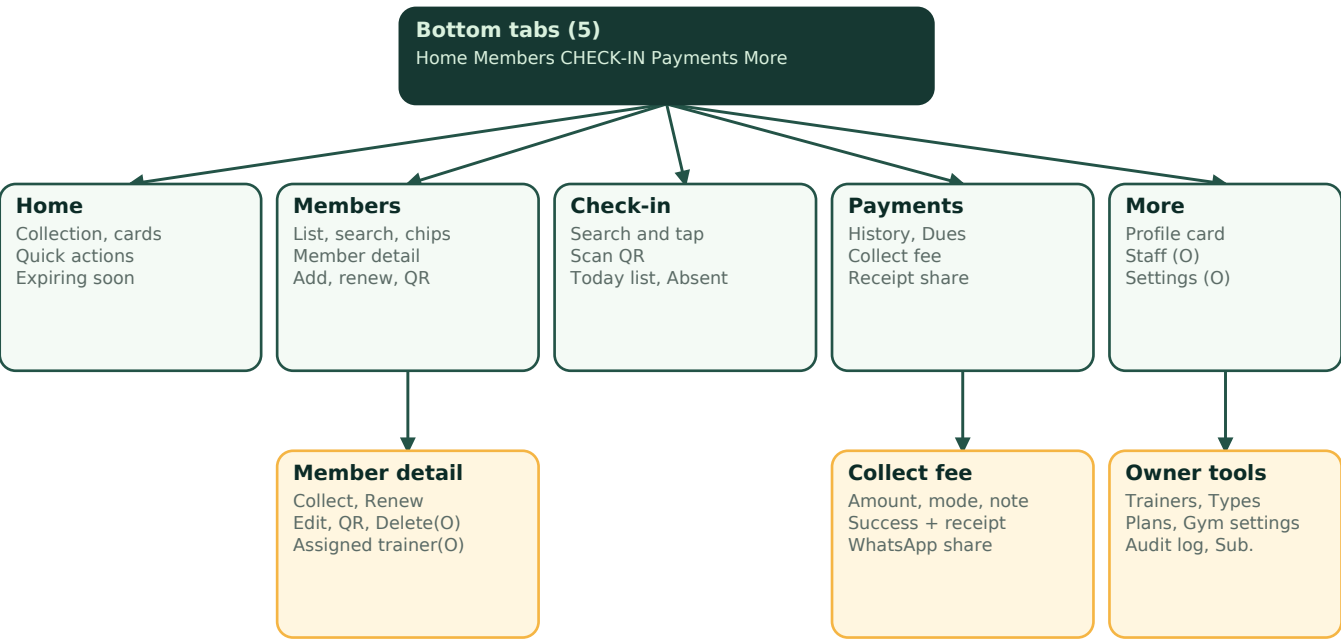

Flows are shown as diagrams followed by a step table. In diagrams: **dark green boxes** are start and end points, **white boxes** are screens or actions, **amber boxes** are decisions or checks, and **coral boxes** are error or blocked states. Requirement IDs (for example MEM-01) refer to the PRD.

1.1 Roles in one line each

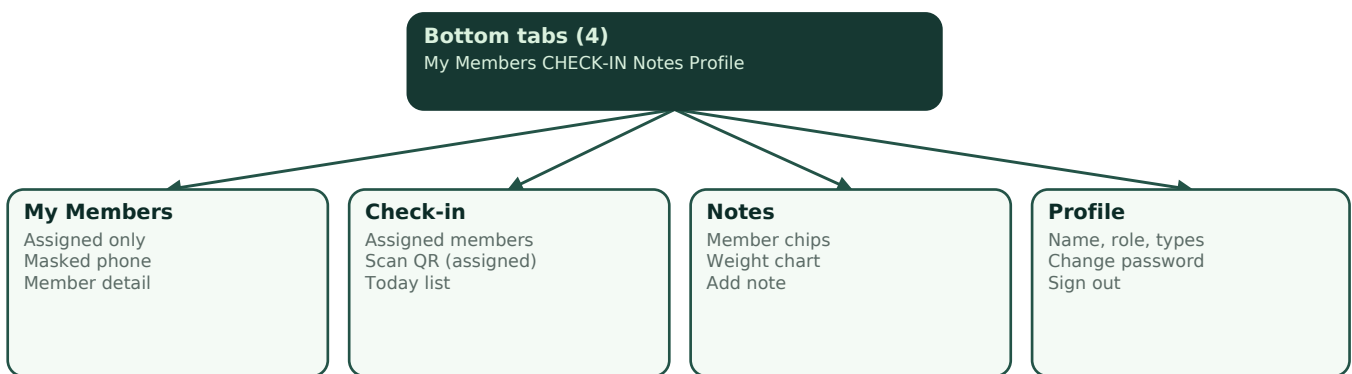

Role	Home screen after login	Tabs
OWNER	Home (dashboard)	Home, Members, Check-in (centre), Payments, More
STAFF	Home (no money cards)	Home, Members, Check-in (centre), Payments, More
TRAINER	My Members	My Members, Check-in (centre), Notes, Profile
SUPER_ADMIN	Admin gym list (separate admin entry, hidden for normal users)	Gyms, Settings

2. Navigation Architecture

2.1 Navigation map: Owner and Staff

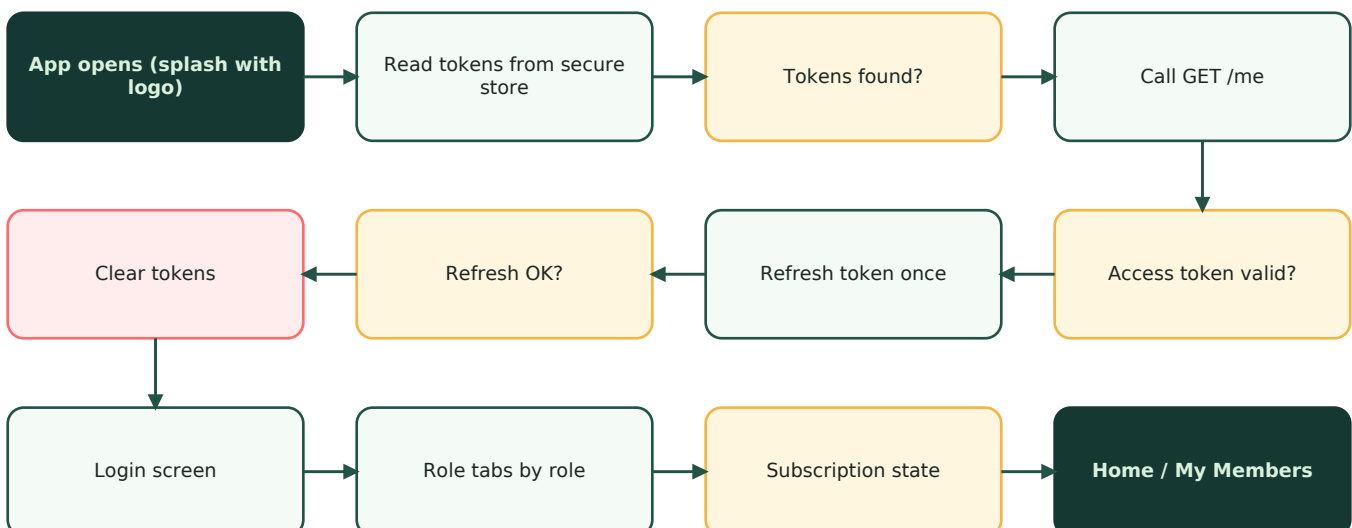

2.2 Navigation map: Trainer

2.3 Navigation rules

1. The set of tabs comes from one config (tabsByRole). The Owner never sees Notes or Profile tabs; the Trainer never sees Home, Payments or More.
2. Hidden routes are also guarded: if a user opens a forbidden route (deep link, stale state), the app redirects to the first tab of their role.
3. The centre Check-in button is raised, sage coloured and has no text label. It opens the Check-in screen for every role.
4. Every pushed screen has a header with a back button and a clear title.
5. The Owner profile is the top card on More; there is no separate Profile tab for Owner or Staff.
6. Change password and Sign out live in exactly one place per role.
7. The tab bar floats above the content. Every scrollable screen has bottom padding equal to the safe-area inset plus the tab bar height plus 40.
8. Unauthenticated users can only reach Splash, Login, Register, Forgot password info and the Subscription expired screen.

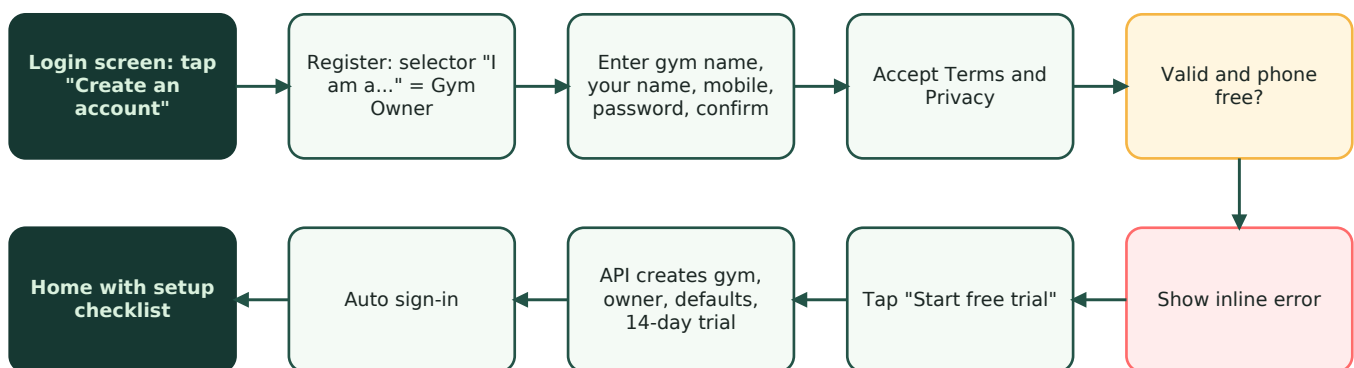

3. App Launch and Session Flow

Step	What the user sees	What the system does
1	Splash with logo and tagline, optional 3-slide intro on first install only	Load fonts, theme, secure store
2	Brief loading skeleton	GET /me with stored token. 200 returns user, role, gym, subscription banner
3	If 401	Interceptor calls /auth/refresh once; on success retries /me. On failure clears everything and shows Login
4	Tabs for the user role	Role comes from /me. Tabs render only after the role is known
5	Banner if subscription ends within 7 days, or redirect if expired	SUBSCRIPTION_EXPIRED code sends the user to the renewal screen

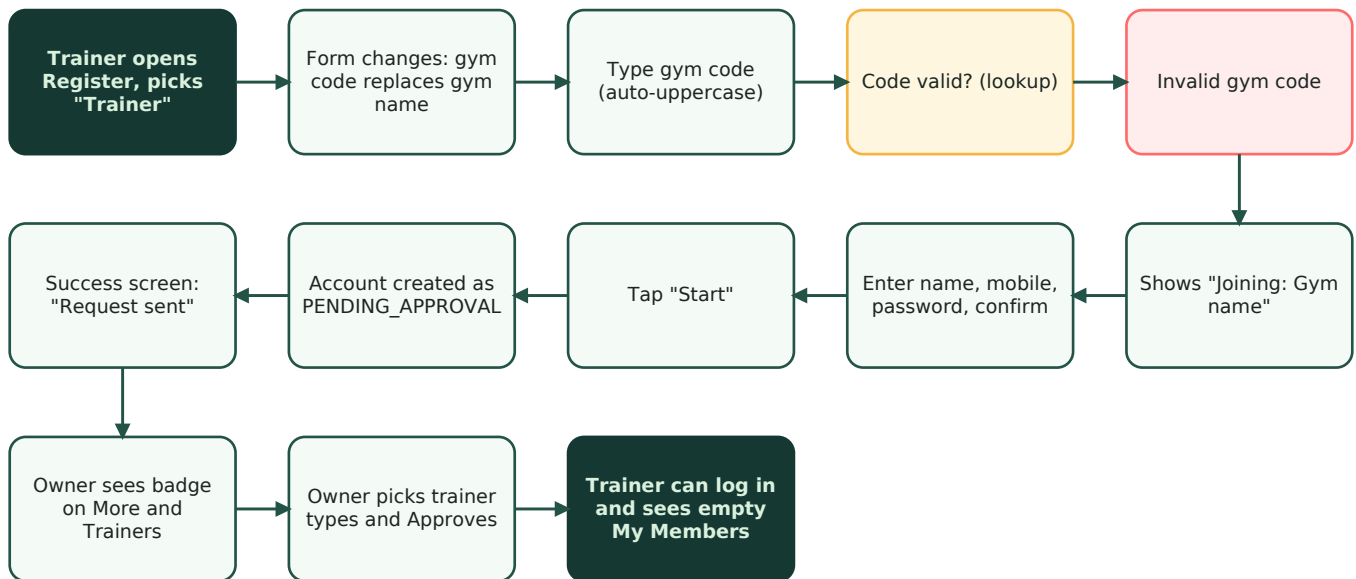

4. Onboarding and Account Flows

4.1 Gym owner registration (AUTH-01, AUTH-03)

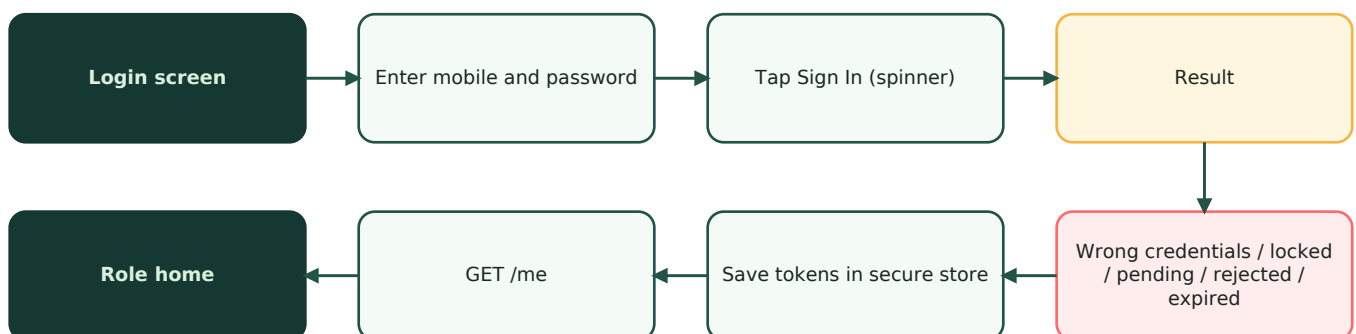

Step	Screen detail	Rules
Selector	Two-segment control at the very top: Gym Owner (default) Trainer	Switching keeps typed name, mobile and password
Fields (Owner)	Gym name, Your name, Mobile number (+91, 10 digits, helper "This number will be your login ID"), Password (rules shown live: 8+ characters, one number), Confirm password	No city field. No separate gym phone
Button	"Start free trial" with spinner, disabled while loading and until Terms is checked	Subtitle: "Start your 14-day free trial. No card required."
Errors	Duplicate mobile shown under the mobile field; weak password under the password field; network error as a banner	Server field errors map to inputs
Success	Signed in automatically; Home shows the first-time checklist: create plans, add a member, collect a payment	Default plans pre-created

4.2 Trainer registration and approval (AUTH-04, AUTH-05, TRN-01)

Step	Detail
Trainer form	Fields: Gym code (required, uppercase, no spaces, helper "Ask your gym owner for this code"), Your name, Mobile number, Password, Confirm password. Subtitle: "Enter the gym code your owner shared with you." Button text: "Start". No mention of a free trial anywhere.
Code lookup	After 6 or more characters, a debounced call to GET /auth/gym-code/{code} returns only the gym name. Success text in sage, failure text in coral. Rate limited.
After submit	Trainer is not signed in. Screen: "Request sent. Your gym owner needs to approve your account before you can sign in." Button: "Back to Sign in".
Try to log in early	Error banner: "Your account is waiting for owner approval."
Rejected	Error banner: "Your request was declined. Please contact your gym owner."
Owner approval	More shows a badge with the number of pending requests. Trainers screen lists them. Approve opens a bottom sheet with a multi-select of trainer types (at least one required), then confirms. Reject asks for confirmation.
First login after approval	My Members is empty: "No members assigned yet. Your gym owner will assign members to you."

4.3 Login (AUTH-07, AUTH-09)

Outcome	Message shown (banner above the button)
Wrong mobile or password	Incorrect mobile number or password
5 failed attempts	Account locked. Try again in 15 minutes
No internet or timeout	Cannot connect to the server. Check your internet
Trainer pending	Your account is waiting for owner approval
Trainer rejected	Your request was declined. Please contact your gym owner

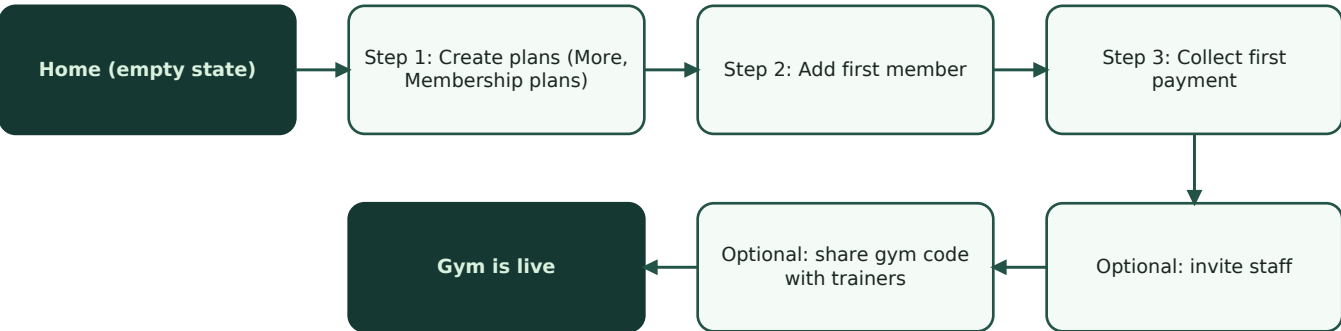

Outcome	Message shown (banner above the button)
Subscription expired (owner)	Redirect to Subscription expired screen with renewal instructions
Gym suspended	This gym account is suspended. Please contact support
Server error	Something went wrong on our side. Please try again

The login screen also has "Forgot password?" (bottom sheet: "Please contact your gym owner to reset your password.") and "New gym? Create an account". A wrong login triggers a short shake animation on the card.

4.4 Password change and reset (AUTH-10, AUTH-11)

- **Change password:** More (or Profile for trainers) then Change password. Enter old password, new password, confirm. On success all refresh tokens are cleared and the user signs in again.
- **Owner resets a staff or trainer password:** Staff or Trainer detail then Reset password. A temporary password is shown once; the user must change it at next login.
- **Owner forgot own password:** contact Gymholik support (Phase 2: OTP reset).

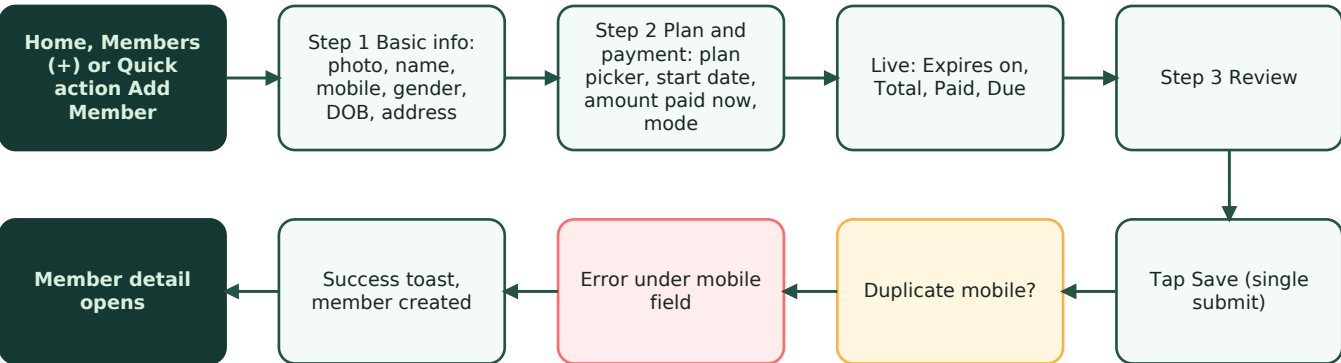

5. First-time Owner Setup Flow

The empty Home shows a friendly message and a large "Add your first member" button plus a 3-item checklist. Items tick off automatically. When all three are done the checklist disappears.

6. Core Daily Flows (Owner and Staff)

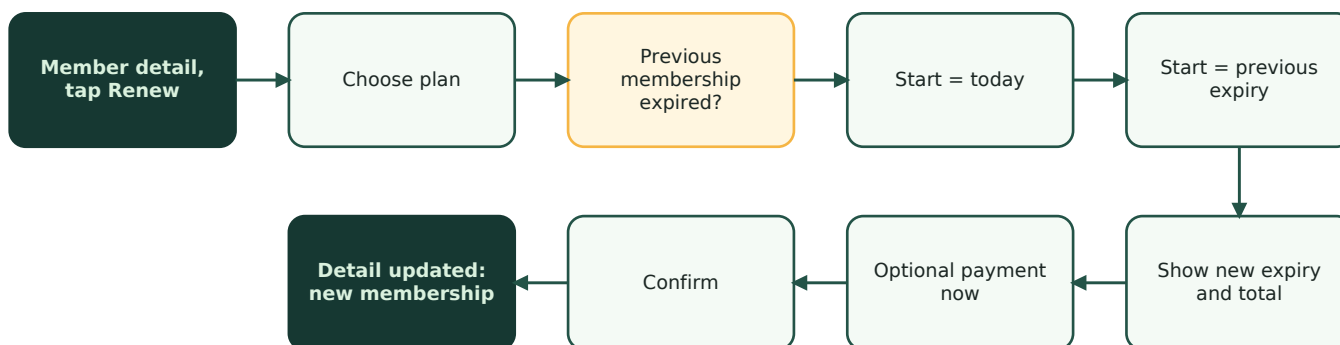

6.1 Add a member (MEM-01)

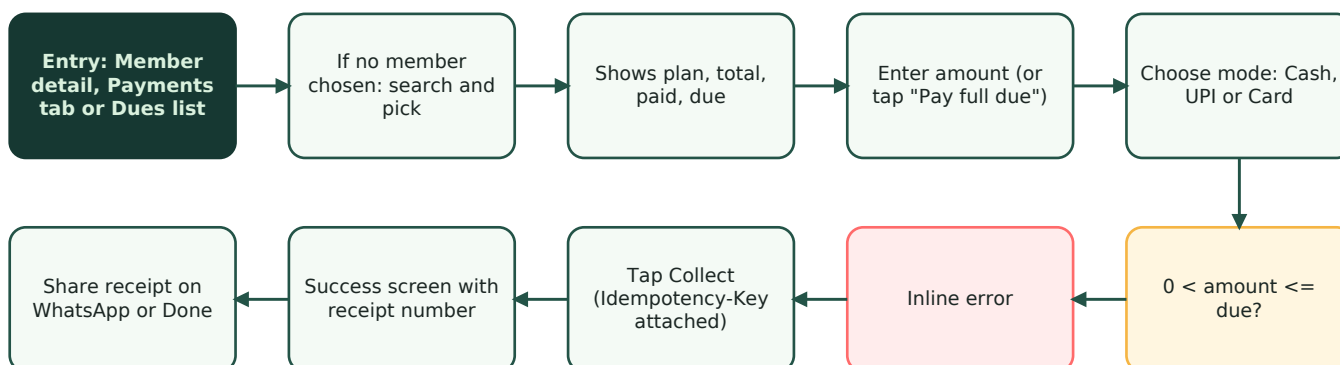

Item	Detail
Form style	Three-step form with a progress bar (Basic info, Plan and payment, Review). Floating-label inputs on glass cards.
Photo	Camera or gallery. Compressed on device (max 800 px, quality about 0.6) and again on the server.
Validation	Name at least 2 characters. Mobile matches <code>^[6-9]\d{9}\$</code> . Paid now must be at most the total.

Item	Detail
Auto calculations	Expiry = start date + plan days. Due = total - paid. Updates instantly when plan, start date or paid changes.
Submit	Creates member, first membership and optional first payment together. The submit button is disabled while loading to prevent double submission.
Cache	On success invalidate members, dashboard and payments queries and navigate to the new member.

6.2 Renew a membership (MEM-07)

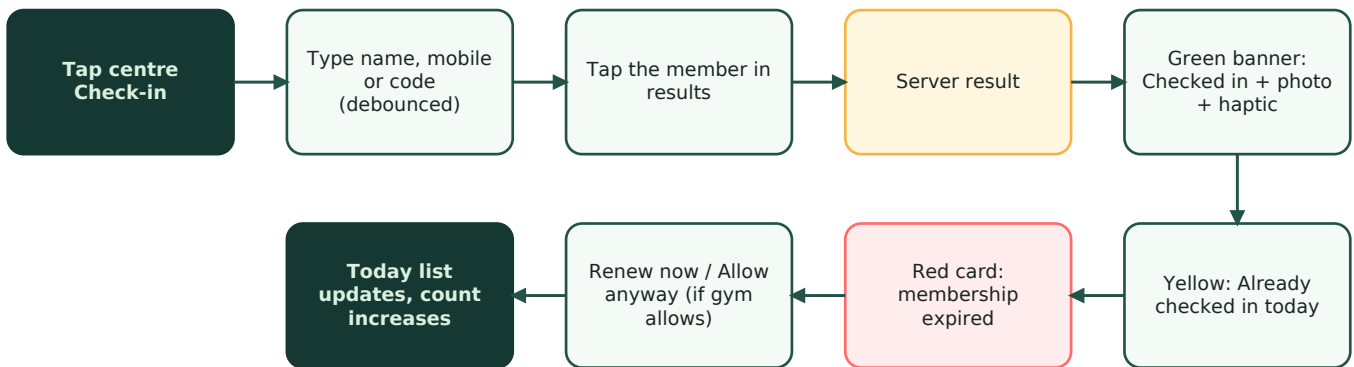

6.3 Collect a payment (PAY-01 to PAY-04, PAY-07)

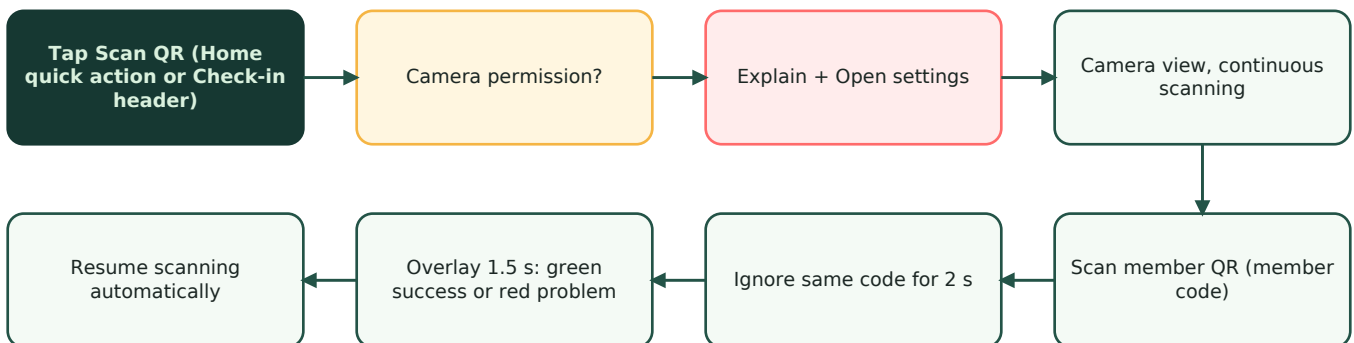

Step	System behaviour
Submit	POST /payments with a fresh Idempotency-Key. A retry or double tap returns the same payment.
Server	Validates amount against due, generates the receipt number atomically, updates membership and member due, writes audit log.
Receipt	The app downloads the PDF with the auth header into a temp file and opens the share sheet. On failure a Retry button is shown.
Reversal (Owner)	Long-press a payment in history, choose Reverse payment, enter a mandatory reason, confirm. A negative entry is created and dues are restored.

6.4 Manual check-in (ATT-01, ATT-03, ATT-04)

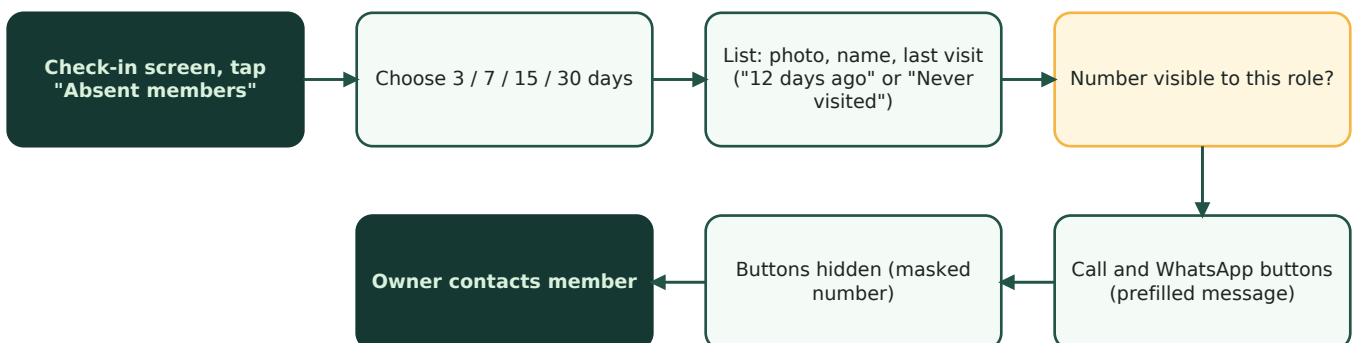

Results list shows photo, name and plan status. For Trainers the search covers assigned members only. The success banner auto-dismisses after 2 seconds. Rapid double taps are ignored.

6.5 QR check-in (ATT-02)

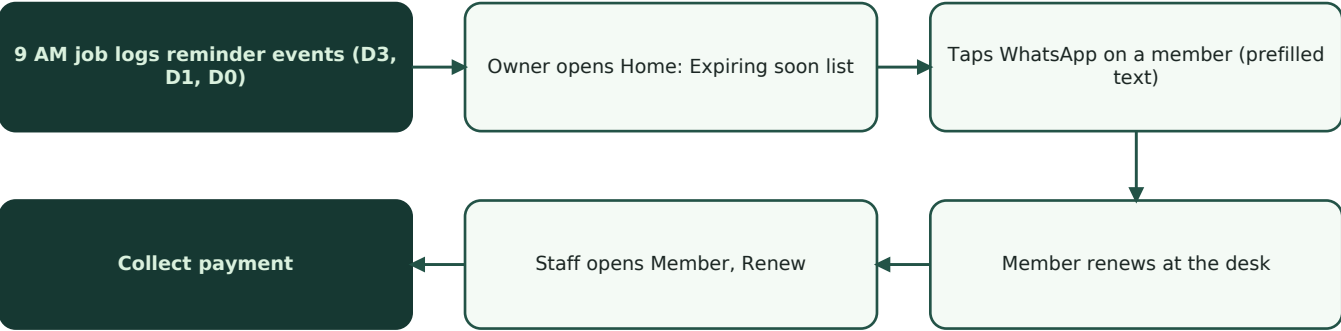

- Torch toggle available. Haptic feedback on success.
- Each scan calls POST /attendance/checkin with memberCode. Unknown or other-gym codes show "Member not found".
- The owner can share each member's QR card from Member detail (modal with QR, name, code and gym; Share as image).

6.6 Follow up absent members (ATT-06)

6.7 Expiry reminder and dues follow-up (REM, PAY-06)

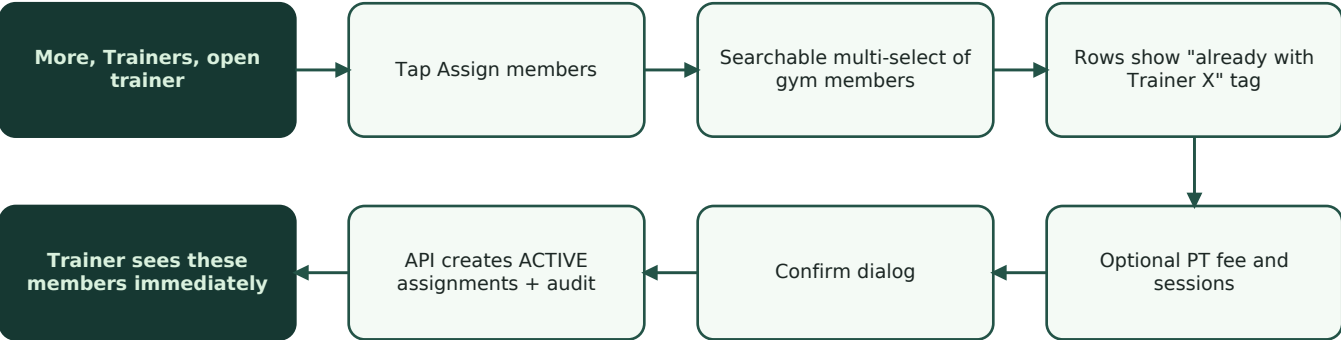

Dues follow-up: Home card Total Outstanding or the Dues button opens the Dues list (highest first). Each row has Collect and a WhatsApp reminder ("Hi name, your fees of Rs X are pending. Please pay at the gym. - Gym name"). The Owner sends the message; the app does not send it automatically in the MVP.

6.8 Search, filters and lists

- Member list: search with 400 ms debounce, filter chips All / Active / Expired / Due, infinite scroll in pages of 20, pull to refresh.
- Status badge: sage for active, amber when 5 days or fewer remain, coral for expired, and a small "Due" tag when money is pending.
- Swipe actions on a row: call and WhatsApp (hidden when the number is masked).
- Every list has loading skeletons, an empty state with a clear call to action, and an error state with Retry.

7. Trainer Management Flows (Owner)

7.1 Assign members to a trainer (TRN-03)

7.2 Trainer types (TRN-02)

More, Trainers, Trainer types: list, add, rename, deactivate. Defaults: Personal Trainer, Cardio Trainer, Zumba Trainer, Yoga Trainer, CrossFit Trainer, General. A trainer can carry several types; types are shown as chips on the trainer card and profile. Types are a label in the MVP (they do not restrict assignment).

7.3 Remove, reassign and deactivate (TRN-08)

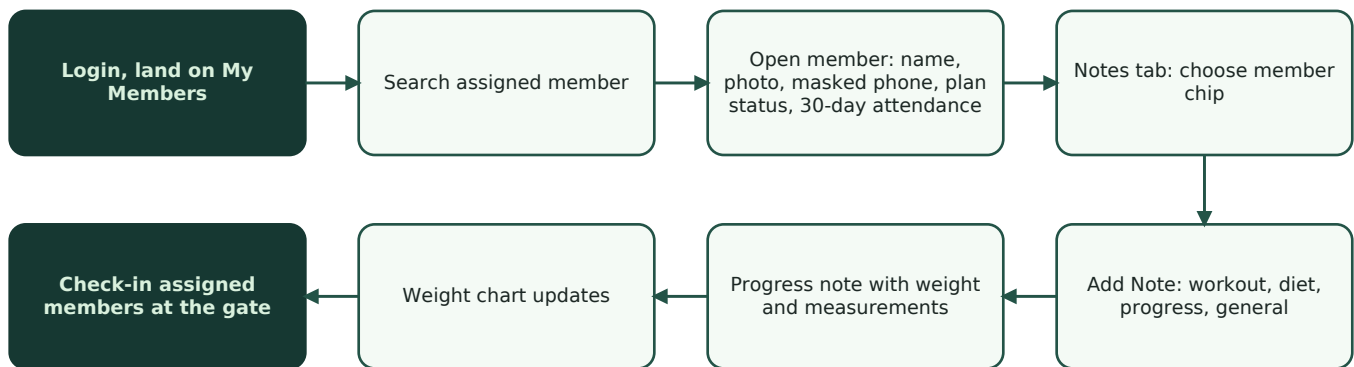

Action	Where	Result
Remove one member	Trainer detail, assigned list	Assignment ENDED. Member disappears from the trainer app. Notes access also ends.
Change trainer for a member	Member detail, Assigned trainer card, Change	Old assignment ended, new one created, audit written.

Action	Where	Result
Reassign all	Trainer detail, Reassign all to...	All ACTIVE assignments move to the chosen trainer.
Deactivate trainer	Trainer detail, Deactivate	All assignments end, login blocked, banner on Home/Trainers lists members without a trainer with a Reassign action.
Edit trainer types	Trainer detail, type chips	Updates labels only.

7.4 Staff management

- More, Staff: list, Add staff (name, mobile, temporary password), activate or deactivate, reset password.
- Setting in Gym settings: "Let front-desk staff see full mobile numbers" (default off) with a warning text. Every change is audited.

8. Trainer Daily Flow

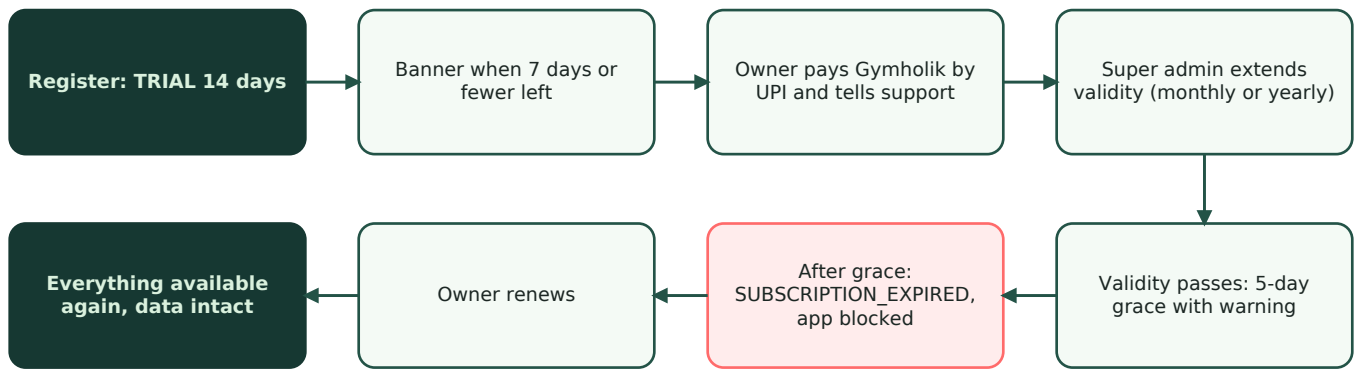

Screen	Shows	Never shows
My Members	Assigned members, avatar with status ring, plan status, masked phone (lock icon "Hidden for privacy")	Other members, full phone
Member detail	Name, photo, masked phone, plan and expiry, attendance, notes timeline	Payments, dues, address, date of birth, Call, WhatsApp, Collect payment
Notes	Member chips with avatar or initials, weight progress chart, filter chips (All, Workout, Diet, Progress, General), floating Add Note button	Notes of unassigned members
Profile	Name, role badge, trainer type chips, gym name, Change password, Sign out	Gym code

If a member is unassigned while the trainer has the screen open, the next request returns 404 and the app shows "This member is no longer assigned to you" then goes back.

9. Subscription and Super Admin Flows

9.1 Gym subscription lifecycle

State	Owner experience	Staff and Trainer experience
Trial or active	Normal. Banner shows days left when 7 or fewer.	Normal
Grace (5 days)	Normal with a red renewal banner	Normal
Expired	Subscription expired screen: plan, expired date, UPI details, WhatsApp support button, Sign out	Message: "Your gym subscription has expired. Please contact your gym owner."
Suspended	Blocked with "Contact support" message	Blocked

9.2 Super admin (hidden entry)

The Super Admin signs in through a separate hidden screen (tap the logo five times on the login screen). The admin list shows every gym with name, owner contact, status and validity. Actions: Extend monthly, Extend yearly, Suspend, Reactivate. The admin cannot open member or payment data.

10. Error, Empty and Edge-case Behaviour

Situation	System response	User sees
No network	Request fails fast; NetInfo detects offline	Offline banner at top, submit buttons disabled, cached lists still visible
401 on any call	One automatic refresh then retry; if refresh fails log out	Login screen with "Please sign in again"
403 FORBIDDEN	Not retried	Toast: "You do not have permission to do this"
404 on a member	Missing, other gym, or not assigned	"Member not found" or for trainers "This member is no longer assigned to you"
409 duplicate mobile	Unique index	Inline error under mobile
422 overpayment	Reject	Inline: "Amount is more than the due"
429 rate limited	Retry-After header	"Too many attempts. Try again in a few minutes"
5xx	Logged server side	"Something went wrong. Try again" with Retry
Empty list	-	Illustrated empty state with a clear action
Slow load	-	Skeleton shimmer instead of spinners
Camera denied	-	Explanation and "Open settings" button
Photo too large	Compress before upload	Progress indicator
App backgrounded during payment	Idempotency key prevents duplicates	Result shown on return
Phone masked	Server returns masked value only	Lock icon, no Call or WhatsApp buttons

11. Screen Inventory

#	Screen	Route (suggested)	Roles	Entry points
1	Splash and intro	/	All	App start
2	Login	/(auth)/login	All	Splash, logout
3	Register (Owner or Trainer)	/(auth)/register	Public	Login link
4	Request sent	/(auth)/request-sent	Trainer	After trainer register
5	Subscription expired	/(auth)/subscription-expired	O	API error code
6	Super admin login and gym list	/admin	A	Hidden gesture
7	Home	/(tabs)/index	O, S	Tab
8	Members list	/(tabs)/members	O, S (T: My Members)	Tab
9	Add member (3 steps)	/members/add	O, S	FAB, quick action
10	Member detail	/members/[id]	O, S, T*	List, search
11	Edit member	/members/[id]/edit	O, S	Detail
12	Renew	/members/[id]/renew	O, S	Detail
13	Member QR card (modal)	modal	O, S	Detail
14	Check-in	/(tabs)/checkin	O, S, T	Centre tab
15	QR scanner	/checkin/scan	O, S, T	Check-in header, Home
16	Absent members	/checkin/absent	O, S, T*	Check-in
17	Payments (history, dues tabs)	/(tabs)/payments	O, S	Tab
18	Collect payment	/payments/collect	O, S	Detail, Dues, Home
19	Payment success and receipt	/payments/success	O, S	After collect
20	Dues list	/payments/dues	O, S	Home card
21	More	/(tabs)/more	O, S	Tab
22	Staff list and add	/settings/staff	O	More
23	Trainers list, pending, detail	/trainers	O	More
24	Trainer types	/trainers/types	O	Trainers
25	Assign members	/trainers/[id]/assign	O	Trainer detail
26	Membership plans	/settings/plans	O	More
27	Gym settings (code, toggles)	/settings/gym	O	More
28	Audit log	/settings/audit	O	More
29	Subscription	/settings/subscription	O	More
30	Change password	/settings/change-password	All	More or Profile
31	My Members (trainer)	/(tabs)/members	T	Tab
32	Notes (trainer)	/(tabs)/notes	T	Tab
33	Add or edit note	/notes/add	T	Notes
34	Trainer profile	/(tabs)/profile	T	Tab
35	Notifications (bell)	/notifications	O	Home header

12. Notification and Messaging Flows

Event	Channel (MVP)	Recipient	Content
Membership expiring in 3, 1, 0 days	Reminder log plus in-app Expiring Soon list; WhatsApp deep link tapped by owner	Member (via owner)	Hi name, your membership at gym expires on date. Please renew.
Pending dues	In-app Dues list; WhatsApp deep link	Member (via owner)	Hi name, your fees of Rs X are pending.
Trainer request	Badge on More and Trainers; bell list	Owner	New trainer request from name
Subscription ending	Home banner	Owner	Subscription ends in N days. Renew.
Trainer unassigned or deactivated	Banner on Trainers	Owner	N members have no trainer. Reassign.
Phase 2	Automatic WhatsApp or SMS, push notifications	Member, Owner, Trainer	Template based
